# Glimpse of our operations

# Validation from parents

... we were overjoyed by the facilities and principles of LBW ... The feedback we got from other parents were great and we were assured of the environment when we visited the centre.

**LBW is a perfect blend of modern methodologies parents prefer and the care grandparents would provide.**

I had visited many daycares but I wasn't comfortable with keeping Anushka at any. **But at LBW, I realised that the staff at any daycare is as good as its management and I really like how you manage your staff**. I like how I get proactive calls if child is sick. I have tasted the food at the centre, its **tasty, hygienic and creative**. The best I like is their openness that I **can see my child anytime without prior permission**

Shikha Gupta (IBM)

Amazing experience so far... **staff is highly skilled, get personally involved with the kids**. ... they have **activities designed by experts** (yes, even for few month old infants) , and give you a daily activity chart of your baby's eating, sleep, medication, poo/ pee, language/gross motor skills, fine motor skills etc. ... **team dedication and efforts is amazing**, My baby is **lot more sociable, has a disciplined routine, eats well, I learnt from LBW on how to feed my kiddo!**
